PLEASE TAKE NOTICE that on November 3, 2011, Verizon Delaware LLC. (“Verizon”) and iNetworks Group, Inc. (“iNetworks”) filed a joint application for approval of an interconnection agreement (“Agreement”) negotiated under the provisions of 47 U.S.C. §§ 251(c), 252(a) (1). Verizon is the incumbent local exchange carrier. iNetworks is conditionally certified to provide local exchange services in Delaware (PSC Order No. 7719, issued January 7, 2010, in PSC Docket No. 09-404). Verizon and iNetworks have asked the Public Service Commission (“the Commission”) to approve the Agreement under the provisions of 47 U.S.C. §§ 252(e)(1).

Provisions in the submitted agreement include:

- Compensation for Reciprocal Compensation Traffic at rates specified with the Agreement.
- The purchase of unbundled local loop elements including recurring prices of \$10.07, \$13.13, and \$16.67 for Density Cells 1, 2, and 3 respectively.
- Provisions related to dialing parity, number portability and directory and database listings, including iNetworks’ customers’ primary listings in the same manner as those of Verizon’s customers’ listings in directories and directory assistance.

- The resale of Verizon telecommunications services for a wholesale discount of 20.0% or 16.0 % (depending upon whether iNetworks provides its own operator services).
- The provision of 911 services to all customers.
- The agreement indicates that the rates for unbundled network elements, call transport and termination, and the wholesale discount may be replaced by new rates at a latter time.
